Good morning Nelson,
Thank you for the chat.

I have included our Operations I/C Insp Dave Falls and Senior Ops Planner Sgt Ernesto Angeles who will link with you at 0830 today, as per discussion.

As per the assist MOU between the RCMP and the OPS, our areas of interest will center on specific taskings that you have, so as to enable our Mobilization/Planning Cell to begin deploying the arriving personnel.

Best,

Mike

Thank your for reaching out

As per our conversation

This will be quick as a first contact.

We are planning with a 7 day outlook at this time

We are asking for front line policing assistance, in addition to any POU request that may come your way.

We have the majority of the static traffic posts covered by OPP and RCMP, locking down the inner perimeter of trucks.

Our intended operations have consisted of Quick response Units assisting the Static posts.

Operations are likely to progress along the lines of strategic police interventions with the crowd by a surge of QRT teams.

We are briefing away from the frozen zone at 101 CentrepoinTE Dr at 0600, 1300 and 2100 hrs, radio issue.

Shuttle to the downtown core and deploy in either static traffic points or QRT teams.

Accommodations can be facilitated via Cst Trish Nesbitt or Leung 613-806-8722 with our Logistics team I believe she is booking at the Fairfield hotel located at 135 Thad Johnson Pvt, near the Ottawa Airport. Names and arrival dates would be required for accommodations.

Hope this is helpful

Hi everyone,

I understand there is a planning call shortly.
Grateful if I may be on that call, if appropriate, as I am the RCMP Commander for the OPS Assist.
If the call is not possible, I would please need to speak to your IC who can provide finer details of the ask so we may continue to support.

Best,
Mike

Debbie,

Not sure if you, or a delegate, can speak to Mike?

Good day Mark,

I have assumed the C2 piece for the RCMP assist to the OPS.

We are currently mobilizing to provide personnel as soon as possible, however, would need to link with you to discuss Ops Plan, demands, etc.

Grateful if you can give me a call at your convenience.

Mike
